

Density Weighing Table with Wheels

The density weighing table with wheels is 8" off of the floor for easier access. The table has a notched edge that improves access to the poly tank bath. In addition the table includes a mounted 4-outlet power strip and a GFCI extension cord.

- The weighing kit includes:
- Steel density table
- 30 gallon tank
- 200 Watt digital tank heater
- Circulating pump
- Stainless steel heater/circulator holder
- Digital bath thermometer with remote readout
- 4-outlet power strip
- GFCI cord set
- 4-casters
