

Water Tanks

45 gallon
24" L x 18" W x 24" D

The specific gravity water tanks are used with the specific gravity bench for suspended weighing of samples. The tank is constructed of 0.25" thick heavy-duty polyethylene. Tanks are translucent, allowing for easy visibility of the water level. All tanks come equipped with drain and overflow outlets.

Features:

- Made of heavy-duty polyethylene
- Seamless design
- Translucent

35 gallon
