

# Water Baths

The water baths feature a microprocessor-based digital controller for precise temperature control. The dual display shows the set point and the process temperature at a glance. The bath is fully insulated to help maintain constant temperatures. Models accommodate to 4" diameter and 6" diameter Marshall specimens at a time. All models feature a stainless steel shelf that supports specimen while 2" of free circulating water flow above and below the specimen. In addition, they utilize a magnetic stirring bar to induce water flow within the bath ensuring a uniform temperature is being maintained. All exposed areas of the bath are stainless steel with the front control panel water and corrosion resistant.

## Water Bath

- Dimensions: 19.5"W x 11.5"D x 8"H
- Capacity: 7.76 gallons

## Large Deluxe

- Volume is 14 gallons
- Dimensions: 20"W x 20"D x 10"H

## Deluxe

- Volume is 7.76 gallons
- Dimensions: ID: 19.5"W x 11.5"D x 8" H.
